A NIGHTMARE

Gives point to the fact that excessive or irregular eating disturbs the digestion. Nightmare or night hag has its day time correspondence in the undue fullness after eating, with the belchings and sour or bitter rising so often experienced after too hasty or too hearty eating.

Dr. Pierce's Golden Medical Discovery cures dyspepsia or bad stomach. When the weak stomach is strengthened and invigorated the whole body shares in the increased strength derived from food properly digested and perfectly assimilated.

"I was a victim of sleeplessness and extreme nervousness induced by chronic indigestion and I felt heavy, tired and worn out continually," writes Miss Mary Smith, of 1013 No. Wahsatch Street, Colorado Springs, Colo. "Dr. Pierce's Golden Medical Discovery was the only medicine which relieved me. Within a week after I began using it that heavy oppressed feeling after meals had left me, and I found that I was able to sleep better than for months previously. My appetite was gradually restored, general system was toned up, nervousness became a thing of the past and I have now been in splendid health for over nine months."

Sometimes a selfish dealer tempted by the little more profit paid on the sale of less meritorious medicines will offer the customer a substitute as being "just as good" as the "Discovery." It may be better for him because it pays better, but it is not as good for you, if you want the medicine that has cured others, and which you believe will cure you.

1000-page Doctor Book sent free on receipt of 21 one-cent stamps to cover postage only; 31 stamps for cloth-bound copy. Formerly sold for $1.50 to extent of over 500,000 copies. Every family should possess a copy for ready reference in case of sudden illness or accident. It is illustrated with hundreds of wood-cuts and several colored plates. Address Dr. R. V. Pierce, Buffalo, N. Y.

HAIR TELLS CHARACTER.

Color of Hair Said to Indicate a Person's Temperament.

Many people believe that blonde, or light hair denotes affection and dark hair constancy. A person without hair is not devoid of character; far from it. The disposition of the average bald-headed man is to show such solicitude for the welfare of others, that he neglects himself. A germ causes baldness. Prof. Sabouraud, of Paris, France, inoculated a rabbit with Dandruff germs, causing it to become totally bald in five weeks' time. To rid the scalp of these dangerous germs it is necessary to apply Newbro's Herpicide.

"Destroy the cause—you remove the effect."

Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich.

E. S. Leadbeater & Sons, Special Agents.

WEAK HEARTS

are caused by Indigestion. If you eat a little too much, or if you are subject to attacks of Indigestion, you have no doubt had shortness of breath, rapid heart beats, heartburn or palpitation of the heart.

Indigestion causes the stomach to expand—swell, and puff up against the heart. This crowds the heart and interferes with its action, and in the course of time the heart becomes diseased.

Kodol

Dyspepsia Cure

digests what you eat, takes the strain off of the heart, and contributes nourishment, strength and health to every organ of the body. Cures Indigestion, Dyspepsia, Sour Stomach, Inflammation of the mucous membranes lining the Stomach and Digestive Tract, Nervous Dyspepsia and Catarrh of the Stomach.

After eating, my food would distress me by making my heart palpitate and I would become very weak. Finally I got a bottle of Kodol and it gave me immediate relief. After using a few bottles I am cured.
MRS. LORING NICHOLS, Penn Yan, N. Y.

I had stomach trouble and was in a bad state as I had heart trouble with it. I took Kodol Dyspepsia Cure for about four months and it cured me.

BARON KANEKO'S SPEECH.

At the dinner of the Society of Sons of St. George in New York, Tuesday, Baron Kaneko, the Japanese diplomat, aroused enthusiasm by his response to the toast, "The Anglo-Japanese Alliance." He declared that he believed that the alliance, which has until 1907 to run, will be continued. "The continuation of the alliance," he declared "would mean that France can remain in peaceful possession of her holdings in Asia; that Germany can remain unmolested in the peninsular of Canton, and that Russia will be left unmolested in her proper bounds of Siberia,."

The diners rose to their feet and cheered for five minutes.

Baron Kaneko said in opening that he did not speak officially; that he was not an ambassador, but simply a private subject of the Emperor of Japan. As for the subject set for him, he believed that it had been amply discussed by Joseph Chamberlain in England. "The important question now," he said, "in the midst of our great struggle with a mighty power, is, What will be the conditions in the far East at the conclusion of the war?" He complimented the diplomats of Great Britain for their unity of action on international affairs, and he believed that both the conservative and liberal parties are in favor of the continuance of the alliance. "England will continue the alliance," he declared, "not for the selfish motives of England and not for the selfish motives of Japan, but that the continuation of the alliance must mean peace in the far East for the future. The alliance localized the war zone and kept the other powers away and prevented a war conflagration in Europe. Let Japan and Russia fight their trouble out single-handed. The alliance kept commerce from entanglement. The continuation of the alliance means the open door for China which was initiated by John Hay. Japan also wants the open door, and between the three nations—Japan, England and America—the dismemberment of China will be made impossible. It is the one factor that can preserve the peace of the world. President Fillmore and Commodore Perry taught to Japan the doctrines of individual rights, of political freedom and religious liberty. Under the influence of your civilization we have prospered as a people."

School Register.

In a public communication yesterday Mr. Julian P. Thomas, principal of the Richmond High School, states that he is the owner of the Teachers' Register, which by instruction of the School Board, is used by each of the nine thousand teachers in the State and for which each has to pay seventy five cents, although several publishing firms have stated that they would furnish it for twenty-five cents a copy and make a good profit at that figure.

Mr. Thomas states that he compiled his register in 1898 and that to do so he was compelled to examine sixty school registers from the most important States and cities in the Union. He carefully prepared the register, making it complete and up-to-date. Each register, he says, is designed to last each school from four to six years, and the average cost to the State cannot exceed from fifteen to twenty-five cents per school per year.

Mr. Thomas then goes on to say that the register, as prepared by him, was submitted to the School Board, composed of the Governor, Attorney-General and Superintendent of Public Instruction, and that seventy-five cents per copy was agreed upon as a proper price. This price, he said, had been paid from 1886 to 1898 for registers not nearly so complete or valuable as the one prepared by himself.

Under the school law, says Mr. Thomas, he or any other teacher has the right to prepare books or invent appliances for use in the State's public schools.

The explanation of Mr. Thomas was brought out by the charge openly made several weeks ago by Mr. J. D. Eggleston, jr., that teachers were being compelled to pay three prices for registers and no one knew to whom the excess profits went. The matter will no doubt come up before the State Board, which holds a very important meeting today.

New Cure For Cancer.

All surface cancers are now known to be curable by Bucklen's Arnica Salve. Jas. Walters, of Duffield, Va., writes: "I had a cancer on my lip for years, that seemed incurable, till Bucklen's Arnica Salve healed it and now it is perfectly well." Guaranteed cure for cuts and burns. 25c at E. S. Leadbeater & Sons' drug store.

Taking Desperate Chances.

It is true that many contract colds and recover from them without taking any precaution or treatment, and a knowledge of this fact leads others to take their chances instead of giving their colds the needed attention. It should be borne in mind that every cold weakens the lungs, lowers the vitality, makes the system less able to withstand each succeeding cold and paves the way for more serious diseases. Can you afford to take such desperate chances when Chamberlain's Cough Remedy, famous for its cure of colds, can be had for a trifle? For sale by Gibson & Timman and W. F. Creighton & Co.

Drunken Man Holds a Church at Bay

While intoxicated Tuesday night, George W. Taylor, of Chester county, Pa., entered St. Paul's Methodist Episcopal Church, at Wilmington, and almost created a panic. He entered just as the service was closing, and the colored sexton attempted to eject him. Brandishing a heavy club, Taylor threatened to kill the black man, striking at him several times. Women members of the congregation fled in every direction, and, with the club, the drunken man held at bay those who attempted to interfere. A reporter finally seized the man, and after a terrific scuffle dragged him to the police station, two blocks away.

Live Dog Wedged in a Sewer.

Workmen in the employ of the borough met with a surprise at West Chester, Pa., Tuesday, when they dug up a terra cotta sewer pipe which contained a live dog. How long it had been in the pipe is not known, but it was so weak that it was killed soon after being released. The men were repairing the sewer, and as they proceeded they heard moans in the pipe. They at first imagined a man had crawled into it. Finally they decided to dig it up, and after removing several sections came across the dog, so tightly wedged that it could neither turn around nor back out.

A Relic Burned.

An old relic of the days before railroads were built was destroyed during the fire that broke out at New Market late Wednesday night. It was a 25-passenger Concord stage, owned by Mr. Charles L. Burke, and was a rare specimen of the old stage coach. The vehicle was used by the Burkes between Winchester and Staunton many years ago, and it is said that scores of prominent statesmen have been transported in the old conveyance now reduced to ashes. —[Winchester News.

Eagle Whipped by Crows.

One hundred crows whipped a big eagle in a fight a day or two ago at the farm of Darlington Beebe, of Westtown, Pa., and drove it several miles from the place. The crows attacked the king of birds in a body, and at one time had it so exhausted that it alighted in a field and fell over on the ground, though it finally escaped.

It is the most wonderful healing salve in the world. Beware of counterfeits. Sold by W. F. Creighton & Son, 924 Queen street.

Alexandria Gazette
SIC SEMPER TYRANNIS
AND VIRGINIA ADVERTISER

THURSDAY EVENING, APRIL 27, 1905.

THE German government, as stated yesterday, preparatory to excluding the United States from the privileges of the new reciprocity treaties signed recently with seven European powers, has formally notified the American government that the tariff agreement between Germany and the United States of July 10, 1900, will terminate March 1, 1906, the day the new treaties go into effect; but that Germany stands ready to negotiate a reciprocity treaty with the United States. The German view, as naturally held at the foreign office and at the Ministry of the Interior, in Berlin, is that the United States cannot reasonably expect to share in special benefits given by Germany to certain European States in exchange for their specific tariff reductions. Should the United States have the same advantages without giving anything in return, the treaty countries could justly complain that they were in effect, discriminated against because from them certain things were exacted by bargain which were freely given the United States. But if the United States desires to take up the general tariff question and arrange a reciprocal agreement, Germany will be very glad to do so. Otherwise, Germany's new general staff, which also goes into effect March 1, 1906, will be applied to imports from the United States. The action of Germany may result in a tariff war, but this country has no right to complain of others erecting tariff walls when that in the United States stands so high.

THE NEW YORK HERALD prints a long article from its correspondent at Caracas, in which details are given of the diplomatic scandal that is centering around Herbert W. Bowen, United States Minister to Venezuela, and Francis B. Loomis, Assistant Secretary of State, and which involve charges of corruption that have been made against the latter by Minister Bowen. "The scandal," says the Herald, "racks the entire community and is of such a nature that, whether true or false, it seems impossible that the two officials can continue much longer in the same department of government". Had Bowen been recalled some time ago the friction between this country and Venezuela would not have occurred. When the diplomatic affairs of the United States are put in the hands of such men as Loomis and Bowen the result can easily be foretold.

THE USE of glass paving and building bricks in European cities is becoming more general, and may extend into the United States. Should the custom finally reach Alexandria it would become necessary for householders to guard their property with shotguns. At present some rascally youngsters divert themselves by chipping pieces from stone doorsteps, and a glass house and glass pavement would afford a great temptation. The action of certain vandals a night or two ago who smashed the glass globes in front of the Confederate Veterans' Hall and afterwards threw down the vases in front of the Confederate Monument are specimens of the wanton destruction of property in Alexandria.

INFORMATION from the Philippines is to the effect that a band of Moros attacked the walled city of Jolo, and broke up a military ball there in progress. This will prove a shock to some. But they should remember that the expansion of civilization is a gradual process. Indeed, another six months may be required in which to bring these guileless children of nature into such a state of refinement that they will not go bolo mad when the glittering gaiety of a social function with martial trimmings bursts suddenly upon their gaze.

THIRTY THOUSAND tons of British pig iron have just been imported by the Pennsylvania Steel Company for use at its Sparrows' Point works, Baltimore, in the manufacture of steel rails for South America. All told, the company has export orders for 60,000 tons of steel rails. This is conclusive proof that steel rails can be made cheaper in this country than abroad, notwithstanding the fact that the republican leaders claim that the tariff on steel rails must be kept at the highest notch to protect American steel industries.

THE representatives of the leading breakfast food manufacturers have agreed that the cereal companies should take official action against the practice of giving premiums of crockery and other household articles to the purchaser. Any article for food or anything else that has a premium attachment needs watching.

THE lecture of William Jennings Bryan on "The Value of an Ideal" suggests a difficult question. It is reasonable to assume, however, that an ideal with the right ring to it, in the right state of the market, might happen to be worth anywhere from 7,000,000 to 8,000,000 votes.

From Washington.

[Correspondence of the Alexandria Gazette.]

Washington, D. C., April 27.

The case of ex-State Senator Geo. E. Green, of Binghamton, New York, reached the Supreme Court of the United States today. Green rests under three indictments in postal fraud cases and three orders have been granted removing him to Washington, D. C., for trial. These orders were granted by Judge Ray, in the United States District Court at Syracuse, New York, that judge dismissing the pending writs of habeas corpus. The orders were stayed pending the appeal to the Supreme Court of the United States, which was received today. The government through the Assistant Attorney General will move that the appeal be dismissed on the ground that it is frivolous, intended only to occasion delay, and raising no point that has not already been considered and decided in the case of Geo. W. Beavers.

According to a decision rendered by the Manila Court of Customs of Appeals, copies of which have been received here, contract laborers may be admitted into the Philippines under certain conditions. The case in question is that of Ramirez & Co., who imported six lithographers from Germany under contract, paying their passage across. The decision of the court is that a criminal action in such a case does not lie, the true remedy being a civil suit. The government will take an appeal.

Additional details have been received here dealing with the arrests made in the Philippines of those influential natives who are said to have been the real instigators of the recent troubles in Cavite and Batangas provinces. The most prominent of the captives are three brothers—Emiliano, Mariano and Vicente Riego de Dios. Emiliano was a general in command of a division during the insurrection, Mariano held the rank of brigadier general and Vicente was a colonel in the insurgent army. They are men of considerable wealth and are said to have been in frequent and direct communication with Montalon, Felizard and other Ladron leaders of the disaffected provinces. They are believed not only to have given the Ladrones information concerning the movements of the American troops, but to have lent them more material aid. The Philippine government considers their cases of great impor ance and Governor Wright has instructed Attorney General Willey to conduct the prosecution in person. It is said that the Riego de Dois brothers have never been aught but thinly-disguised enemies of the American government. Emiliano was a member of the Hong Kong Junta and showed considerable ability as the author of blood-thirsty proclamations. He returned to Manila about 18 months ago and took the oath of allegiance on his arrival. Word has also been received here that Marian Torilbio, the Marive Justice of the Peace, who attempted to incite an insurrection by writing letters to prominent Filipinos, commanding them to revolt, under penalty of death, was convicted of sedition and sentenced to two years imprisonment and to pay a fine of $2,000.

President Nicholas Murray Butler, of the Columbia University of New York city, has written to Secretary Taft announcing that the university has undertaken a special course of instruction in order to prepare men to occupy intelligently and effectively posts in connection with the public administration or development of South and Central American and oriental countries.

The leader of the outlaws who murdered four American school teachers near Cebu, in the Philippine Islands, in June, 1902, has been captured and has confessed. He at first denied the charge, but later admitted his guilt and implicated others. It is said that some of the gang who had a part in the murder of the American teachers have already been killed in other skirmishes. The government will urge the extreme penalty for Cadutdut, the leader.

Trouble on a Man-of-War.

A state of friction, almost bordering on mutiny, is said to exist on the new United States cruiser Galveston, now at Galveston. The vessel arrived there last Wednesday on her maiden trip to receive a silver service from the citizens of Galveston. The cruiser has been visited by thousands of people from all sections of the State.

On Tuesday Captain Cutler ordered his ship away from the wharves where she has been since her arrival to an anchorage in the roads, so that the officers might be better able to control the men, numbers of whom were leaving the ship and overstaying their shore leave. Federal and municipal officers have returned nearly two score of men found ashore, many of whom were said to have been intoxicated. These men vigorously protested against the treatment which they allege is accorded them on board ship by Captain Cutler. Men of long service who came from the vessel on shore duty and local people who were on board yesterday state that a condition verging on mutiny is existing there.

The men, among them several petty officers of long service, pronounce the voyage of the Galveston the most unbearable they ever have experienced. Many of them denounce the commander and state that they are overworked and underfed.

They claim that for the most trivial offenses they are given the extreme penalty and that 60 of the men are in irons.

Marines are said to be almost worn out preserving order on board. The cruiser sailed for Norfolk at noon yesterday.

Another Mrs. Hoch.

One more name may be added to the long list of matrimonial dupes of Johann Hoch, now on trial in Chicago, charged with murder, if the accusations made by Karl Frederick Loffler, of Durlach, Germany, are true. In a letter received in Chicago yesterday by the police Loffler declares he has identified a picture of Hoch as that of a man who married Loffler's niece, Justine Loffler, in Chicago, in 1902. Loffler declares that his niece, after going to New York with Hoch, married the alleged Bluebeard, whose assumed name was Richard Schmidt. The woman disappeared and Loffler says he believes she was murdered by the self-confessed bigamist. Miss Loffler, according to the information furnished in the letter from her uncle, came to America in 1896, going to Elkhart, Ind., to live with another uncle, Christian Loffler. Later she went to Chicago, where she met "Richard Schmidt." While in Elkhart the woman was given many valuable presents and several hundred dollars in money by her uncle.

James Eveleth Maynadier, son of the late General William Maynadier, died in Boston yesterday.

Denny, president of Washington and Lee University, then made an address on "A Southern Interpretation of the Confer. nece."

Shot by a Mob.

After working three hours with sledge hammers and pickaxes, a mob of twenty-five men broke in the parish jail at Homer, La., seventy-five miles northeast of Shreveport, yesterday, and shot Dick Craighead, inflicting wounds which will probably prove fatal. Craighead was charged with the murder of Mrs. Ike McKee, wife of his half-brother, and her little son.

The authorities were unaware of the design to mob the prisoner until it was too late to protect him. Every telephone and telegraph wire out of Homer was cut and the rifles of the Claiborne Guards, the local military company, were seized before the move was made on the jail. So quietly did the mob work that scarcely any one in the little town was aware of what was taking place at the jail.

Having dug a hole through the brick wall, the lynchers crawled through the opening, but on reaching the steel cell in which the prisoner was confined, found it impossible to break the lock. They then began shooting at the cowering prisoner through the bars of his cell, more than twenty shots being fired and nearly every one taking effect. The man's legs, arms, and portions of his body were literally riddled. Believing that Craighead was dead, the members of the mob left the prison and quickly dispersed.

When Sherift Kirkpatrick and citizens of the town reached the jail they found Craighead still alive. It is stated that he told the sheriff the names of three of the lynchers, and another prisoner in the jail told the name of another man whom he recognized. The names have not been divulged.

Discovered His Mistake.

The reason Dr. Francis Brauneis, a Fifth avenue New York dentist, killed himself is, so his most intimate friend said last night, that, having reached the Osler stage of life, "he was afraid he could not make his young wife happy."

But his wife, in her apartments at 15 east One hundred and Sixth street, is crying her pretty eyes out over the casket containing the old man's remains.

Dr. Brauneis was 63 years old. Mrs. Brauneis is young enough to have been his granddaughter. Dr. Brauneis was most fond of the sedentary pursuits suited to his years, but for the sake of the happiness of his young wife he tried to live over again his departed youth, which was such a strain upon him that he at last decided to cast down the burden of life rather than live to have his wife discover that she had selected too old a man.

Accident to a Train.

A Chesapeake and Ohio passenger train struck a tree at Cass, on the Greenbrier division, Tuesday night, and the entire train was thrown into the river, 30 feet below. The train consisted of an engine, combination coach and day coachs all of which were destroyed. Engineer C. H. Dean and Fireman Culp were badly injured. Six passengers were slightly hurt. All the injured were taken to the hospital at Cass, Fireman Culp died several hours after being taken from the wreck. It was learned later that Uriah Byard, of Marlington, a passenger, was so severely injured he may not recover. He says the tree which caused the wreck fell almost directly in front of the engine.

Professors Roll Down Stairs.

Chancellor Andrew Sled, of the University of Florida, and Professor Marion, of the preparatory department of the University, engaged in a fist fight of the most picturesque character Wednesday. Continuous misunderstanding between the two led to the demand by Sled for Marion's resignation. Wednesday Marion called on Sled in the latter's private office and requested a leave of absence. Words of a sulphurous type are said to have passed, and soon the two emerged from the room struggling. The two rolled down the steps and landed with Marion, the larger man, on the bottom. Students rushed in and separated them.

Christians Murdered.

Paris, April 27.—The foreign missions board has received a dispatch from Shanghai saying that four missionaries and many Christians have been murdered by the natives in Thibet.

Virginia News.

The barn belonging to H. Carpenter, in Orange county, was burned recently with three horses, two cows and farming implements. Loss over $1,000; no insurance.

The Easter Sunday collection at St. Paul's Protestant Episcopal Church, Lynchburg, amounted to $12,600, which will be appropriated towards wiping ont the debt of $14,000 on the building fund.

A fine barn belonging to Murray Wilson, near Mountain View, Stafford county, was burned Tuesday night, with two mules, corn and farming implements. No insurance. The fire is thought to be of incendiary origin.

At the meeting yesterday of the Confederate Memorial Literary Socity in Richmond, a letter was read from Mrs. Margaret Davis Hayes, daughter of Jefferson Davis, denying the story told by one of the guards that Davis had a glass eye.

James Delay, 60 years old, keeper of a lodging house on Campbell's wharf, Norfolk, was held yesterday by the United States authorities, on the charge of conspiring with John McBride, now in the penitentiary, and others for the robbery of the Port Norfolk postoffice of $400 on June 11, 1904.

The barn belonging to Mrs. Nannie Turner, near The Plains, in Fauquier county, was destroyed by fire at an early hour Tuesday night. Four horses and a colt, with a quantity of hay, corn and farming implements were also burned. The insurance amounted to $1,000, which is a small part of the loss.

Messrs. Davis & Davis, Washington patent attorneys, report the grant, this week, to citizens of this State, of the following patents: Lloyd W. Brabble, of Deepcreek, for potato-digger; Jarard W. Lytton, of Portsmouth, steam-trap; Thomas H. Pace, of Richmond, match box; Charles Mohring, of Charlottsville, for railroad system.

Broke Up Wedding With Pistol.

A rejected suitor, with a pistol, broke up a wedding in the midst of the ceremony at the Methodist Church at Campbells, Isle of Wight county, Tuesday. A man was shot in the arm and a woman received a flesh wound in the face from bullets fired by the bride's former sweetheart. The somewhat meager reports of the affair received at Suffolk fail to give the name of the swain who did the shooting.

The wedding which was so rudely interrupted was that of Martha Bunkley to William K. Davis. The officiating clergyman was the Rev. Mr. Duckins. The wedding party and friends crowded the little church, and the ceremony was about half completed when the girl's former sweetheart, brandishing a pistol in his hand, strode down the aisle toward the altar just as the minister, following the words of the service, asked if there were any present who knew any reason why Martha Bunkley and William K. Davis should not be made man and wife.

Raising his pistol in threatening gestures, the neglected suitor ordered the ceremony to be stopped, but the Rev. Mr. Duckins paid no heed to the interruption and calmly proceeded with the service, while the bride, almost fainting, hung to the arm of the groom.

Enraged by the refusal of the minister to obey his command, the rejected rival began to shoot. One bullet whizzed uncomfortably close to the head of the officiating clergyman, who dropped his book and precipitately fled, leaving the couple at the rail half married.

At the first shot there was a wild rush for the doors and windows on the part of the spectators, who fell over one another in a mad struggle to get out of range. Before the crowd was all out two more shots were fired, one of the bullets striking a man in the arm and the other cutting open a woman's cheek.

It is stated that the rejected suitor, who was formerly Miss Bunkley's sweetheart, had threatened to prevent at all hazards her marriage to Davis.

Charged with Terrible Crime.

Charged with causing the death of a fellow-workman by throwing him into a vat of cream of tartar and then turning on the steam so as to parboil the body, Gustave Lebenz was a prisoner in Brooklyn Police Court yesterday. He was held upon a homicide charge, made upon information and belief by Police Captain Reynolds.

The story of the alleged connivance of Lebenz in the death of Theodore von Grofski is a grewsome one. The two men were employed by the Tartar Chemical Company, in Brooklyn. On the night of April 15 Von Grofski disappeared, and his body, or what remained of it, was later found in the cream of tartar vat, the contents of which were boiling. At the time it was believed that the man had fallen into it. Von Grofski's body was found by Lebenz and a fellow-workman, Joseph Schmidt. Schmidt told Captain Reynolds yesterday that there was no steam in the vat just before Von Grofski was missed, but that when Von Grofski disappeared Lebenz turned on the steam and set the cream of tartar boiling. When the two men found Van Grofski's skeleton Lebenz exclaimed that he saw Von Grofski lamp in the vat. Schmidt, however, told the police that it was Lebenz's lamp and not the dead man's.

Florence D. Elliott was appointed postmaster at Pluck, King George county, Va., today, vice Richard A. Johnson, deceased.

Letter to W. F. Lambert,

Alexandria, Va.

Dear Sir: If it took 10 gallons to paint your house last time with somebody else's paint, and takes 8 with Devoe, we save you $8 or $10; for painting costs two or three times as much as the paint.

Mr Ezra Rathmell, Williamsport, Pa, always used 11 gallons of mixed paint for his house; Devoe took 6.

But that isn't all; that's only first cost; how long will it wear?

The paint that goes furthest in covering, wears best too.

All paint, true paint and full-measure, are on one side; part paint, false paint, and short-measure are on the other. What can you expect?

Yours truly

Teamsters' Strike in Chicago.

Chicago, April 27.—Teamsters' unions and Chicago employers of labor renewed their struggle this morning, and Mayor Dunne is trying to preserve order with 500 patrolmen. Two hundred and fifty officers are detailed to accompany wagons which carry goods to and from proscribed houses and 250 more are watching the stores and freight houses. Two of State street's big department stores will become the center of the strike today. The wholesale districts were brought within the battle zone late yesterday afternoon, and employers and union drivers have clashed arms in a desperate struggle for the mastery. The labor storm began when the teamsters in the wholesale houses of Marshall Field & Co., Carson, Pirie, Scott & Co., and J. V. Farwell & Co., left their work because three of their number had been discharged for refusal to deliver goods to Montgomery Ward & Co., and burst with menacing force last night, when a strike was ordered of the drivers in the retail stores of Marshall Field & Co., and Carson, Pirie, Scott & Co., and the teamsters of the A. M. Forbes Teaming Co. With the spreading of the strike this morning, there will be 597 union drivers either on strike or locked out. By night, according to union leaders, the number will be 800 and all of State street will be threatened with a tie-up. President Shea of the teamsters announced that he "has his coat off." He prophesies that 2,000 teamsters will be in the struggle by tonight. The Employers Association, meanwhile, with unlimited resources and plans carefully laid, stands ready to meet the issue squarely. The leading business men of the city who have been moving slowly during the last two weeks in full expectation of a big strike, said they had been awaiting the bursting of the storm for some time and had no doubt of the outcome. In case of obstructions or violence beyond the capacity of the police to handle, the association is prepared to secure, on a moment's notice, a federal injunction. Behind such a court order would be the United States troops and the employers say they would not hesitate to appeal to martial law should developments warrant such a step. It is possible application to the federal courts for protection may be made today. A petition was prepared as soon as it was learned that two attacks, nearly resulting in riots, had been made late yesterday upon wagons.

The Fleets.

Saigon, Cochin China, April 27.—All the Russian transports and the hospital ship Orel, which were left behind when Admiral Rojestvensky's main squadron left Kanranh bay, left the inner bay yesterday. The vessels now form an immense arc outside the harbor, extending from Cape Varela to the head of the Kamranh peninsula. Torpedo boats are kept busy steaming in all directions. Apparently, the squadron is waiting for rear Admiral Nebogatoff. The French cruiser Descartes steamed around the Russian fleet and then returned to this port. Only four German ships now remain in the inner bay. The vessels captured by the Russians bearing cargoes as charged for Japan, were flying the German flag.

Tsingtau, Shantung Peninsula, China, April 27.—A private telegram received here says Admiral Rojestvensky's squadron has joined with the detachments of war vessels under Admiral Nebogatoff.

London, April 27.—The markets are weak on the reported cutting of the Hainan cable, and unconfirmed rumors of a great naval battle in which several of the Japanese war vessels are said to have been lost.

Triple Execution.

Pittsburg, Pa., April 27.—The first triple execution in the criminal records of Alleghany county occurred in the jail yard this morning. Walter Obey, Chas. Jackson and Charles Miles, negroes, were hanged for the murder of Ivan Kluzor, May 18th, last, at Leetsdale. Obey and Jackson were hanged together. Miles followed his companions to death within a few minutes. The men had written confessions of their lives, and gave the details of the shooting of Kluzor. Miles and Jackson were baptised, according to the custom of the Methodist Episcopal Church, yesterday, and this morning Obey received holy communion from Father Littenberger. The crime for which they were hanged, was a most brutal one. They held up Kluzor and another Hungarian on a county road, near Leetsdale. After robbing them they shot Kluzor, who was taken to the West Penn hospital, where he died. No special incident attended the execution. Jackson died of strangulation. The necks of Obey and Miles were broken. The bodies were turned over to the reputed wives of the men.

Russia's Financial Loss.

St. Petersburg, April 27.—The Rissky Slovo says that financial experts have calculated the financial loss sustained by Russia owing to the war with Japan. Russia has $1,500,000,000 of state funds on which there has been a fall of seventeen per cent on account of the war, making the approximate loss $250,000,000. The shares of twenty-two municipal banks have decreased $110,000,000. The shares of rural banks have decreased to the amount of $170,000,000. Nobility and peasant banks have dropped $100,000,000 and the decrease in railway securities has reached $250,000,000. Proportionate losses on other securities have brought the aggregate financial loss to Russia, up to the enormous figures of $1,000,000,000. This loss will increase steadily, the experts declare, as long as the war continues.

Russian Cruisers Ordered.

Berlin, April 27.—A dispatch from St. Petersburg says that the Czar has ordered the immediate construction of three first class cruisers of the Bayan type, four gunboats, ten river gunboats, three submarine mine transport ships, thirty-one torpedo boats and ten coast defense vessels.

The resignation of M. Bouligan, as Minister of the Interior, is expected. General Trepoff, Governor General of St. Petersburg, is regarded as the most probable candidate to succeed him.

The position of Governor General of Moscow has been re-established. General Kozloff has been appointed to the position.

Ridicule Predictions.

St. Petersburg, April 27.—The predictions that great disorders will occur here on May 1st are ridiculed in well informed circles. The authorities declare these stories are merely newspaper sensations. General Trepoff declares all precautions have been taken to prevent any outbreaks. It is reported that new restrictions on the Jews will be published soon.

Nan Patterson's Trial.

New York, April 27.—Nan Patterson was radiantly happy today over the prospect of her acquittal of the killing of Caesar Young, and her confidence was shared not only by her counsel, but by the spectators in Recorder Goff's court. The failure of Hyman Stern, the pawnbroker, to identify J. Morgan Smith as the purchaser of the revolver, with which Young was shot, was a heavy score for the defense. There are the letters said to have been written by the accused girl to the Smiths to be produced in court and their contents may disclose damaging evidence concerning the purchaser of the revolver. Mrs. Margaret Young, the widow of the bookmaker, and John Millin, racing partner of Young, were in court today, to testify for the state. The prosecution will probably complete its case today. Abe Levy, counsel for the actress, said after coming into court this morning: "When the state concludes its case I shall probably ask for an adjournment for a day to determine whether I will put in a defense. There seems to me little necessity at present for putting in a defense. There is, however, little likelihood of calling Nan or any of the Smiths to the witness chair." Bernard McKeon, a brother-in-law of Caesar Young, was again on the stand this morning, but was excused from further examination until Mrs. Young had testified.

J. D. Millin, racing partner of Young told of Young and Miss Patterson being in California together two years ago.

Mrs. Young testified that she knew of the relationship existing between her husband and Miss Patterson. She also told of the dinner party which she attended with her husband the night before the shooting.

Explosion in Feed Store.

Huntington, W. Va., April 27.—At 11:30 today an explosion occurred at the feed and seed house of Mossman Bros. and Co. on Third avenue. The explosion was heard for miles. The Mossman building was totally wrecked, and numerous buildings near by were badly damaged. The supposition is that the explosion was caused from gas. It is known that three persons were killed and there may be many other bodies beneath the debris. Following the explosion the wreckage caught fire. When the flames were subdued, hundreds of people began the work of moving the debris in an effort to recover the bodies of the victims. The following have been recovered from the ruins: Hall Ross, horribly cut about the body, will die; Ida Stafford, badly cut about head, arms, and body, will probably recover; W. E. Upton, cut about head and face, was boookeeper for Mosman Bro.; Grace Hall, out about shoulders, and face, not critical; John Bayles, cut about body; Jeff Shinster, cut about head, and arms. The explosion is said to have occurred from a little colored boy placing a lighted match to a leaking gas main. The front door of the wrecked building was blown a square away, and bricks rained for a time on the streets and avenues. Plate glass windows were broken squares away. Pizella's barbershop was next door to the Mossman building and persons half shaved were blown into the street Bales of hay, barrels of lime and cement were hurled hundreds of feet into the air. It is believed that many bodies are beneath the wreckage. Every fire apparatus in the city is at the scene.

Pensions for Retiring Teachers

New York, April 27.—Announcement was made today of another generous gift by Andrew Carnegie. It is a fund of $10,000,000 to provide for "retiring pensions for the teachers of universities, colleges and technical schools, in our country, Canada and Newfoundland." Mr. Carnegie's aim is to insure faithful teachers a competence after they have reached the age limit, to assist others who have been forced to retire earlier in life on account of physical disability, and to raise the standard of teaching in institutions where younger professors would be substituted for those who have outlived their usefulness were the trustees unable to continue their salaries. Everything is ready for the inauguration of the scheme. A committee of trustees including all the chief educators of the country has been made.

Mr. Carnegie sailed for Europe yesterday and gave explicit instructions that no mention should be made of the gift before his departure, from this country. The corporation which is being formed will be styled." The Carnegie Foundation."

Explosion of Dynamite.

Philadelphia, April 27.—One man was killed and eleven others injured by an explosion of dynamite, at Downingtown, last evening. Four of the injured will die. The Pennsylvania Railroad is making a new low grade freight line and employed a big gang of Italians to blast rocks and dig the road bed. A blast was prepared but before a number of the workmen could reach a place of safety, it exploded, prematurely. The man who was killed outright was literally blown to pieces and all the others were maimed, cut and bruised all over their bodies. The force of the explosion was felt for miles around. In houses near by, windows were shattered and dishes broken.

Sullivan Addresses Convicts.

Marquette, Mich., April 27.—John L. Sullivan, who is en route to Seattle, Washington, addressed the convicts in the State penitentiary yesterday by their special request and consent of the warden. "You are down and out now," he told the fellows in stripes, "but most of you will get another chance. Get ready and make the most of it." Sullivan talks of his coming match with Mitchell as though there was something in it and says his backers will deposit the forfeit when they reach Seattle. "I'm the only man in the United States who has made a million dollars honestly," was one of John L.'s mod st cracks.

Elijah Johnson, a negro who on the night of November 4 last, shot and killed Julius Collins, colored in Philadelphia, in a quarrel over a woman, with whom both had lived, today paid the forfeit on the gallows at Moyamensing prison.

Full of Tragic Meaning

are these lines from J. H. Simmons, of Casey, Ia. Think what might have resulted from this terrible cough if he had not taken the medicine about which he writes: "I had a fearful cough that disturbed my night's rest. Instantly relieves and permanently cures all throat and lung diseases; prevents grip and pneumonia. At E. S. Leadbeater & Sons, druggists; guaranteed; 50c and $1.00. Trial bottle free.

Voluntary Petition in Bankruptcy.

Milwaukee, Wis., April 27.—A voluntary petition in bankruptcy has been filed in the United States District Court by Frank G. Bigelow, confessed defaulting president of the First National Bank. In the petition Bigelow stated that his indebtedness to banks and commercial institutions and estates of which he had charge will aggregate between $2,000,000 and $3,000,000. The petition contains the names of as many of Bigelow's creditors as he can remember, together with a list of assets on which Bigelow's valuation is $1,419,000.

According to the bill, his creditors extended all over the United States. So far as could be ascertained Bigelow had no system of keeping a record of his financial transactions, and the schedule of liabilities and assets had to be made up from a list made in pencil on a half sheet of note paper in Bigelow's handwriting. The filing of the petition in bankruptcy will necessitate the withdrawal of the securities which were turned over by Bigelow to the First National Bank, as, being made within four months of filing of the petition in bankruptcy, it constitutes an act of preference of creditors and the amount which was estimated at about $300,000 will be equally divided among all the creditors of the defaulter.

Wife Murder and Suicide.

Quincy, Mass., April 27.—Albert Shargo, about 26 years old, shot and killed his wife, at their home 194 Franklin street, South Quincy, early this morning, and then turned the revolver against himself, inflicting a wound from which he died three hours later. Shargo, who was a Scotchman, had been married but a short time. Jealousy, it is said, was the cause of the crime.

Ten Men Smoke 25,000 Cigarettes.

An inquiry made by students of the State University at Columbus, O., as to how many cigarettes the ordinary smoker will consume in a year has developed the fact that the 10 students, none of them regarded as unusual fiends, smoke 25,000 in the college year of 8½ months. The investigators were surprised at the result of their investigations.

Steamer Burned.

London, April 27.—A dispatch to Lloyds from Shanghai says that the steamer Yuen was burned to the water's edge at Tingchow. No details of the disaster have arrived here, but it is feared there were many fatalities, as the Yuen carried 150 Chinese. The Yuen is not reported in the maritime register and there is no record of the vessel.

New York Stock Market.

New York, April 27.—Since the opening there have been general declines in the stock market ranging from 1 to 2 points in nearly all the active stocks. The break in wheat helped the decline. It is supposed this further break in May option has forced renewed liquidation of stocks carried by operators concerned in or following the bull pool in wheat.

Wedding in Berryville.

At 7 o'clock last evening in St. James Episcopal Church, Berryville, Miss Margaretta McCormick, daughter of Mr. and Mrs. Marshall McCormick, and Mr. Charles Fenton McGuire, of Hoboken, New Jersey, were married by Rev. Mr. Edward Wall, the rector of the church. The color scheme of the wedding was developed in pink, the church decorations being in apple blossoms and the bridal party passing under arches of the blossoms lighted with pink and white wax tapers on their way to the altar. The ushers, Mr. Palmer Campbell, of New York; Dr. McKenzie, of Newark; Mr. Adams and Mr. Arthur Jones, of New York, led the way, followed by little Misses Hallie McCormick, sister, and Lucy Harrison, cousin of the bride, carrying baskets of pink tulips and wearing pretty white frocks. The bridesmaids—Miss Rosalie and Miss Gertrude McCormick—came next, in white lingerie gowns, trimmed with lace, and worn with pompadour sashes and wreathings of pink roses. Their flowers were pink tulips. The matron of honor was Mrs. Jett McCormick, of Norfolk, in a pretty costume of white accordion-plaited crepe de chine and Irish lace, with a wreath of white roses. The bride walked into church with her father. She wore plaited liberty silk and point lace. Her veil was caught with orange blossoms. She was met at the altar by the groom, with his best man, Mr. Louis Hardie, of New Orleans. The bride's mother who will be remembered by many Alexandrians as the beautiful Miss Rosalie Taylor, daughter of the late L. B. Taylor, of this city, wore a black spangled net gown. Mrs. Cox was in black net, relieved with point lace, and Mrs. W. T. Lewis, the groom's sister, in white lace. After the ceremony a reception was given the bridal party and they immediately left for the south.

The New Collector.

Mr. L. P. Summers, of Abingdon, who will succeed Mr Park Agnew as collector of internal revenue on May 1, stated, in Bristol yesterday, that upon entering upon the duties of his new position he immediately will resign the position of chairman of the republican executive committee of the Ninth Virginia district. He will also resign his position as a member of the republican State committee. He says he has his preference as to where he would like to locate the office of collector, but that the wishes of several communities are to be considered before the matter is decided.

Just whom Congressman Slemp will single out to succeed Mr. Summers as district chairman is not known, but there are several men who might fill the position in a satisfactory manner.

It is understood that Collector Summers will appoint Mr. W. M. Slemp, son of Congressman Slemp, as chief deputy. Mr. Slemp is now a division deputy under Collector Agnew and is at present stationed in Southwest Virginia.

It is also understood that Mr. Summers for the present will make but few changes in his office, either in this city or throughout the district.

Obstructed Railway Traffic.

John Davis, an elderly citizen, went to the intersection of King and Fayette streets last night and seated himself upon the Washington-Southern Railway track. A freight train subsequently came along and the engineer, seeing the man on the track, brought his train to a standstill. Davis refused to leave the track and no one felt authorized to remove him forcibly until Special Officer Genzberger came along, and took Davis from the track. The latter walked down King street until he came to Henry, where he again took a seat on the track. Officer Lyles subsequently took him in charge and locked him up. Davis was brought before Justice Caton this morning, who held him pending an examination into his sanity. He had previously been arrested on a charge of lunacy, but the charge not having been sustained, he was sent to the alms house.

On Trial for Embezzlement.

John L. O'Brien, indicted for the embezzlement of $5,407 from Frank Hume, was arraigned yesterday in the Criminal Court of the District of Colombia. Assistant United States Attorney Turner explained that there were eight counts upon which O'Brien was indicted, each count alleging a distinct act of embezzlement. Mr. Turner reviewed the history of the young man's life and pointed out that he had been employed by Mr. Hume for eight years and took advantage of his employer's confidence. Mr. Turner told the jury of O'Brien's flight from the District in October, 1902, and his subsequent capture in San Francisco, Cal. O'Brien's defense is being conducted by Attorneys Lambert & Baker and F. J. Hogan

White perch, now an expensive luxury, are hard to procure at any price. A few were in market this morning. They were held at 15 cents per pound. Several bunches of black bass were on exhibition, but they keep high.

Mr. J. P. Rodier has handsomely painted the residence of Mr. P. J. Dempsey.

Who Can Vote in November.

1. A man, who has been duly registered under the new constitution may vote in the November election this year, provided he has, at least six months before said election (that is to say, not later than Saturday, May 6), personally paid all State poll-taxes assessed or assessable against him for both 1903 and 1904. "Personally paid" means that a man has paid said taxes with his own money. No taxes of any kind or description are required to be paid as a prerequisite to the right to vote except the State poll taxes referred to.

2. There is one exception to the above requirement, viz; A veteran of the civil war (but no veteran of any other war) may register and vote without paying any kind of taxes whatever for the privilege of so doing.

3. A man, who has not been duly registered under the new constitution, may now be transferred (provided, of course, he is qualified in other respects) upon paying all State poll-taxes assessed or assessable against him for the three years 1902, 1903 and 1904. After being registered, he will be entitled to vote in the November election this year, provided his State poll taxes for 1903 and 1904 were personally paid not later than Saturday, May 6.

4. There is one exception to Class No. 3, viz: If a man has reached the age of 21 since February 1, 1904, or will reach the age of 21 before the November election, he may (provided, of course, he is qualified in other respects) be registered after he has paid to the treasurer $1.50. The amount so paid will be in full settlement of the first State poll-tax assessable against such young man. This sum must be paid before he may be registered. After such young man is registered, he will be entitled to vote in the November election.

Every man will find the poll-tax requirement governing his case explained in one of these four sections.

Ben-Hur.

Arrayed in all its splendor, "Ben-Hur" will inaugurate an engagement of one week at the National Theatre, Washington, Monday evening May 1. There will be the usual Wednesday and Saturday matinee. Of all the spectacular productions of modern times, none has been credited with so long a run of prosperity as this great and popular dramatic romance. "Ben-Hur" is today crowned with a record of nearly 1,900 performances in a little over five years, and has been seen by more than four million people. In all this period of marked prosperity a Sunday performance has never been given. No play in the history of the stage world admits of the massive scenic settings that "Ben-Hur" does.

Reviewing "Ben-Hur" as a play, it is one of the most stirring and impressive stories ever given to the stage, and while the keenest admiration and astonishment have been manifested for the marvelous scenic and mechanical effects that are unfolded in its enactment the impression that lasts and lives, and that which has been responsible for the wonderful success scored, is the beautiful, fervent and highly dramatic story, so forcibly and truthfully told with its endowment of grand music supplied by Edgar Stillman Kelly. The advance sale of seats opened today. W. H. Rapley, manager of the National Theatre, announces that out of town orders, if accompanied by a remittance, will be filled in the order received.

Sang Hymns While Wife Planted Corn.

"If I could have subsisted upon prayers and hymns I suppose I could have lived happily with my husband; but as he insisted on sitting in a rocking chair, singing hymns while I worked to keep the family from starvation, I thought it time to leave him. We separated last August and he was done nothing towards supporting me since," Mrs. Addie Justice, of Philadelphia, said to Magistrate Rooney yesterday morning when she appeared at the Central Station to charge Franklin Justice with neglecting to support her and two children.

"When your husband was in affluent circumstances, when you had servants and horses and carriages, you had no complaint to make of his "hymn singing habits, had you?" asked the attorney who represented Justice.

"I am willing to admit that my husband at one time provided a good home for me; but that was long ago," replied Mrs. Justice. "In recent years he has looked to me to support the house."

"He has a home for you now; are you willing to go to it?"

He has no home that is fit for a woman to live," quickly replied Mrs. Justice. "He had a home on a farm down in Jersey for me once, and I went there with him. When we arrived he sat on the porch and sang hymns and told me to go out in the field and plant corn. I have had enough of the kind of homes he provides. What I want is support for my children."

Magistrate Rooney said the case was one which the Desertion Court should consider, and he held Justice in $300 bail for trial.

Mrs. Josephine Leighton Noble, a young and handsome woman, was placed on trial for her life at Flushing, N. Y., today. The woman is charged with the murder of her husband, Paton Noble, who was shot to death in his apartments at Long Island City, on the night of November 12, last. Noble, who was prominent in local political circles, met his death in as mysterious a manner as did Caesar Young, whose death has been charged to Nan Patterson. The shooting occurred late at night, when no one was present but Mrs. Noble. She claims the shooting was accidental. She declares she went to a trunk, took out a revolver, and that when her husband grabbed it, out of her hand, it exploded. Paton Noble was shot twice in the left breast, and medical experts declare the wounds could not have been self inflicted as described by Mrs. Noble.

WATCHES AND JEWELRY

Just Plain Jewelry Facts.

(1) It costs money to make good jewelry. Gold, silver and workmanship don't grow on bushes.
(2) Good jewelry can't be sold at a price less than the first cost, plus makers' and sellers' profits.
(3) Cheap jewelry isn't worth the space it takes to describe it. It always proves unsatisfactory.
(4) Good jewelry can be guaranteed; cheap jewelry can't.
(5) We sell only jewelry that is made by reliable manufacturers, guaranteed by them and by us. We sell it at as low prices as can possibly be made on goods of equal quality.
(6) It will pay you to come to us for your jewelry needs. Any day—but today best of all.

Burma's Monster Cigars.

One of the curiosities of Burma is a cigar of monstrous and alarming appearance, which every one smokes from an early age. "The indigenous article is a monster eight inches long," writes V. C. Scott O'Connor in his book, "The Silken East." "It consists of chopped wood, tobacco, molasses and various herbs wrapped in the silver white skin of a bamboo. So wide in diameter is it that it completely fills up the mouth of any young damsel who tries to smoke it. For presentation purposes this long cheroot is often wrapped at one end in a coat of purple or gold paper. It accumulates a formidable mass of fire at the lighted end and requires some skill in the smoking. But the Burman infant acquires this skill before he can walk and while he is still at the breast. No one thinks of smoking such a cigar through. Two or three long puffs, the lips of the smoker thrust out to meet the circle of the cigar, and it is put down or passed on to some good fellow sitting by."

The Man Who Loves Words.

"Other folks, of course, have their poor pleasures," writes Richard Le Gallienne in Harper's Magazine, "but for a man who loves words no joy the world can give equals for him the happiness of having achieved a fine passage or a perfect line. When Thackeray struck his fist on the table, as the story goes, when he had finished the scene of Colonel Newcome's death and exclaimed, 'By God, this is genius!' there was no empire he would have accepted in exchange for that moment. We often hear that your true artist is never satisfied with his work, his ideal escapes him, the words seem poor and lifeless, etc., compared with the dream. Whoever started that story knew very little about the literary temperament or he would have known that the words are the dream. The dream does not exist even as a dream or only very imperfectly till it is set down in words. Yes, the words are the dream."

The Curious Limpets.

The limpets are a curious kind of shellfish. They resemble the abalones in their habits. The interior is made of the most brilliant colors, bronze and iridescent hues predominating. They are found on the west coast of Mexico and are so large that the people use them for wash basins.

They are ferocious animals and prey with great voracity on clams. The process seems slow, but the limpet always gets there. He gets his cover over the unsuspecting clam and puts his big foot on his shell, generally on a weak spots. Then he whips out a long, wiry tongue and proceeds to bore a hole in his captive. When this is done the shell flies open, and the limpet is free to feast on the poor clam's carcass. He eats but a part and leaves the rest for the fishes of the sea.

Pudding Wives.

The name of pudding wives was given to women who were occasionally employed in some English monasteries for making pastry and delicacies that call for the deft touch of a feminine hand. They were engaged by or with the consent of the regular cook of the monastery and had a house or chamber in which to work near the kitchen called the pudding house. When animals were slaughtered, especially when pigs were killed, about St. Martin's day, these women's services were required to make black puddings; hence the name pudding wives. They were called in, too, for the making of pastry on special occasions.

Better Than Aladdin's Lamp.

Aladdin's famous lamp was doubtless a very handy little piece of bric-a-brac to have about the house, but there is question whether it would be very highly esteemed in these days of advertising wonders. Aladdin may properly be regarded as a back number. Whenever he wanted anything he had to earn it by the sweat of his brow as a metal polisher. Nowadays people who want things put ads. in the newspapers—it's much easier than rubbing an old lamp—and they are served just as effectively as was Aladdin by his genii.—Philadelphia Record.

You'll Be Glad to Know This.

The lucidity of this statement, made by a medical journal, will appeal to all hurried readers: "Further evidence of the complex character of toxins was also furnished by the studies of haemolysins and bacteriolysins, which had their origin in the union of an amboceptor and complement and were analogous to toxins, the amboceptor representing the haptophore and the complement the toxophore group."
